Note: This application form is not a permit. When a well permit is issued, this application and attachments will become part of the permit. Except for emergency repairs, an issued permit is required before well construction, repair, reconstruction, or destruction work begins. The permit is valid for one (1) year from date of issuance. A one-time permit extension of one (1) year is available for a set fee if the extension is applied for prior to expiration of the original permit date of issuance.
