<p>All of Family SOUP's planned activities were on track this quarter. We continued to offer parent-to-parent support, referrals, transportation assistance, support groups, activities, and more virtually. We have continued to offer our newest playgroup Sensory Play. The children have really enjoyed getting together virtually and having an opportunity to play and engage their senses. We have been delivering activity bags prior to each session, which is a big hit with the kids. We continue to contact and connect with our families and make sure that they are aware of our services and other resources we have to offer and other resources available in the community as well.</p>

<p>All of the staff at Family SOUP are continuing to enter client information into Persimmony. We still seem to be having difficulty come reporting time, and have met multiple times with ASR and Persimmony staff to get this resolved. We are grateful for the work on their end that they are doing to get things figured out so that eventually it will be a seamless process. They have been very supportive as we implement this new change in reporting. Our most recent meeting was successful in that now we feel we have a better understanding of Persimmony, the issues seem to have been resolved and we are now able to complete our reporting independently.</p>

<p>As mentioned in a previous quarter, Family SOUP introduced a new program to take the place of a previously planned program, which was not going to be able to take place due to the pandemic. Family SOUP adapted and is now offering Sensory Play monthly to children with special needs in Sutter County who are ages 0-5. We continue to offer all of our programs and services virtually, our office continues to remain closed to the public at this time. With the regional stay at home order and local advisory being lifted as well as the recent tier change, all staff have been given the option to work completely remote, or to come into the office 1-2 days.</p>

and that they kept reminding them it was coming up. The child was also very happy when their sensory play bag was delivered ahead of time. They said it was so nice to get a fun bag. The parent shared that they were so glad something like this was being offered, especially since their child hadn't been able to attend any playgroups recently.
