PSST...I got my vaccine today because I want to visit grandma!

KNOW THE FACTS!

- ✓ Vaccines help to protect your child from severe illness due to COVID-19.
- ✓ Vaccines are **SAFE** and **EFFECTIVE**.
- ✓ Your child **may experience mild, temporary side effects** like sore arm, headaches, fever, or fatigue.
- ✓ The **Moderna** COVID-19 Vaccine is administered as a two-dose primary series, one month apart, for individuals 6 months - 17 years of age. The **Pfizer-BioNTech** COVID-19 Vaccine is administered as a three-dose primary series for individuals 6 months - 4 years of age.
- ✗ Vaccines **DO NOT** change your child's DNA.
- ✗ Vaccines **DO NOT** affect your child's fertility.
- ✗ Getting the vaccine will **NOT** give the child COVID-19. The vaccine will allow your child to create antibodies to COVID-19 that can protect them from severe illness due to COVID-19.

PROTECT YOUR CHILD FROM COVID-19
