### REQUEST FOR PUBLIC POOL FACILITY CHANGE OF OWNERSHIP INSPECTION

California Health and Safety Code Section 113920 requires investigation to show that a recreational pool facility and its method of operation will conform to the California Health and Safety Code, the California Code of Regulations, the California Building Code, and the California Electrical Code prior to issuance of an operating permit.

We strongly recommend any prospective pool facility operator review existing Environmental Health files and recent inspection reports.

General Information: Primary contact should call to make an appointment for a change of ownership inspection. We endeavor to find all code violations; however, operators are required to have their recreational pool facility in full compliance with California Health and Safety Code, the California Code of Regulations, the California Building Code, and the California Electrical Code prior to issuance of an operating permit. An inspection report will be provided to prospective owner and/or agent.
