- **Actions:** The specific programmatic, policy or other actions that implements or "operationalizes" a strategy

Group Activity: Identify Strategies and Actions

- Things to think about with strategies
 - How can we leverage resources that are already present in our county?
 - What more information might be needed to carry out our objectives?
 - What more can and should be done?
 - How can we leverage resources provided by the state and federally?
 - What are the actions we need to take to operationalize these strategies?
- Remember! We will work collaboratively for the next 3-5 years with all community members here and more.

Determining Lead Entities and Timeline

- As a whole group, determine lead entities and timeline
 - Discuss who will best lead the activities defined and where organizations can work together
 - What is the timeline to implement these activities to ensure we are on track to meet our goals
- Are there any other entities that you would like to see involved going forward?
