Dedicated to uplifting children and their families

We pair families looking for additional support and mentoring with home visitors trained in the nationally-recognized, evidence-based Health Families America home visiting program

Do you have a new baby or are you expecting?

Children don't come with instruction manuals. Parental love is powerful but without support, experience, and knowledge, it can be overwhelmed by exhaustion and stress. The good news is home visiting can help!

Home visitors meet with families in their home on a regular basis (determined by the family's need and desire) and support families from pregnancy through their child's 3rd birthday. These visits help lay the foundation for the health, education, development, and economic self-sufficiency of the entire family.

“Healthy Families has helped me so much. I have learned stuff you can't find anywhere else. From the visits and the activities, my daughter has grown so much. I hope you will keep the program available for other families to benefit from.”

-Lindsay

Pregnancy and parenthood can be an overwhelming experience, which can come with worries, questions and stress.

No cost services

Families will receive support and will engage in fun activities right in their home to learn more about:

Having a healthy pregnancy

Caring for their baby

How to bond with their child

Their child's development

How to provide their child with enriching learning experiences

¿How have Health Families America home visiting programs like this one improved families' lives?

- Improvement in child health
- Improvement in maternal health
- Improvement in family economic self-sufficiency
- Improvement in child development and school readiness.

Who qualifies?

To be eligible participants must be:

- A Sutter County resident
- Medi-Cal eligible
- Pregnant or parenting a baby up to two months old
